

EDITORIAL SCHEDULE 2005

FT Mandate investigates the reasons why institutional mandates are won and lost. Our editorial team uncovers the underlying trends and keeps our readers informed of all the current developments in asset allocation and custody.

Each issue we run a series of editorial features and FOCUS sponsorships, which offer advertisers a full range of options. Regular Investor's Guides to key regions will be published during the year.

We will also create tailored solutions for clients who have specific requirements.
